25% off Select Studio One Cables during Yorkville Month

Studio One cables deliver unmatched reliability with uncommon clarity and tone. High quality Amphenol connectors with the patented 'Jaws' internal strain relief system ensure the Studio One cable ends will not fail. The cable itself is designed around the 18-gauge center conductor that guarantees transparent signal transfer from source to mixer or amplifier. A rugged ultra-flexible PVC cable jacket and pure copper braided shielding ensure your sound makes it to the mix night after night without additional background noise.

ART VoiceChannel

Designed to deliver in critical applications where full control of the audio source is required, the **VoiceChannel** combines a

single Class-A tube mic preamp, full-featured dynamics control, De-esser, expander and semi-parametric EQ into one unit with analog and digital output as well as the ability to direct connect to any computer or laptop via integrated USB port.

Only 50 of these will be made available. Every Guitar comes with a certificate of authenticity. LPR58VMBNH

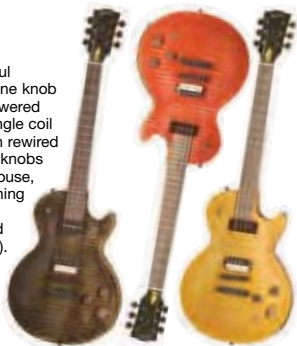

Special \$3299.00

Gibson BFG Les Paul Electric Guitars

The **Les Paul BFG** is the most powerful Les Paul Gibson has ever made. Two volumes and one tone knob control the sonic spectrum put out by a high-powered Burstbucker 3 in the bridge and a screaming, single coil P-90 in the neck. The traditional toggle has been reworked as a kill switch, and a mini-toggle at the volume knobs controls pickup selection. An innovative powerhouse, the BFG has no binding, no figured top, no finishing touches. Available in three colours only - translucent black, (LPBFGTBDB), translucent red (LPBFGTCDB) or translucent gold (LPBFGTGDB).

Feature Price \$939.00
